coming presidents and vice presidents, and preparations for the grand ceremonies marking the change of administrations go on with feverish haste and bustle. Major McKinley and Mr. Hobart were wolcomed to their future home by one of those glorious, bright days, such as Washington takes pride in, when in the mood. The entry of the two was made with little ceremony and comparatively slight public demon-

Governors, generals and men with one title or another, past or present, continue to arrive with each train, so that it is no longer a risk to address with some title almost any one who may be met about the hotels or public

Of the prospective new cabinet there are in the city Messrs. Sherman, Gage, Alger, Gary, Wilson and McKenna, and a possible cabinet officer in J. J. Mc-Cook of New York, who arrived during tho day.

Of governors of states there are already here Governors Black of New York, Tanner of Illinois, Grout of Vermont, Lowndes of Maryland, Scoffeld of Wisconsin, Hastings of Pennsylvania, Griggs of New Jersey and Bushnell of Ohio. Governors Drako of Iowa and Pingree of Michigan will be in Washington before night.

The arrival of the president elect and the presence of such a large proportion of public men of influence sufficient to affect the formation of the new cabinet, started a flood of gossip concerning the members of President McKinley's official family, but through all the fog of guesswork and speculation the fact shows clearly that the cabinet is still uncompleted and for precisely the same reason that it has known to be about a reason that it has known to be about a week, namely that the president elect desires to honor New York with a place and that a man has not yet been found acceptable at once to the leaders of Empire state politics and willing to take the position which the cabinet slate, as arranged, marks us his birth. Senatorelect Platt saw Mr. McKinley during the afternoon, but the conference was inde-

One interesting suggestion cropping out of the cabinet gossip was an intima-tion that the senate might adjourn over from Thursday until the following week. The significance of the intimation lay in the fact that there had been canvassed the possibility that Mr. McKinley's cabinet would not be ready for annotincement on Friday and that therefore no occasion would arise for a session to confirm the successors of the present cabinet. There have been delayed cabinet announcements in the past, and at such times the outgoing officers out of courtesy have held onto their places until such time as it was the pleasure of the chief executivo to relieve them, only routine business, of course, being attended to, and matters of policy deterred. Inquiry at the senate on the matter of adjournment was answered by the statement that it

would be as Mr. McKinley might wish. The incoming of so many visitors of note also started the social activities of the town, and there were innumerable dinners and receptions in the fashionable parts of the city in honor of inaug-

ural sojourners.
Grand Marshal Porter kept hard at work at his quarters arranging for the big parade on Thursday. A rough to-tal of the number of regular and militia soldiers and sailors who will be in line shows an aggregate of 11,000 to 12,000. The escort of President-elect McKinley when, in accordance with custom he rides down the avenue to the Capitol to tako the oath of office, will number about 5,000. The civic organizations vary so greatly in strength that it has been found absolutely impossible to make an exact statement of the number of men they will have in line, but it is estimated at about 12,000.

President Cleveland and Mrs. Cleveland last night entertained at dinner President-elect McKinley. The invita-tion, which while not a novelty, is not always usual to a change of administration, was extended through Secretary Porter several days ago, but up to a late hour in the afternoon it was doubtful whether or not it could be carried out, owing to the indisposition of President Cleveland. Word came to Mr. Porter at the Ebbitt, however, about 5 o'clock, that the president had so far recovered from his rheumatic attack as to be able to carry out the engagement, which was renewed in pressing form. It was expected that Mrs. McKinley would accompany her husband to the dinner, but owing to the exhaustion that followed the exciting ovents of the journey from Canton and the day in Washington she was unable to do so.

There was nothing elaborate about the dinner or the decorations. Mrs. Oleveland had given her personal attention to the arrangements and the table decorations and menu were exceedingly simple and in good taste. Freed from the restraining influence of others, the retiring and incoming presidents and Mrs. Cleveland chatted without formality and without doubt the president elect received many hints as to the easiest manner to bear the burdens of the responsibilities that will be the week ending Fob 28, is 1,525.

GIGANTIC COAL STRIKE.

Miners in the Pittsburg District Will Demand Higher Wages.

PITTSBURG, March 3.—There will be a strike of miners of the Pittsburg district unless something is done to alleviate the distress that now exists.

National President M. D. Ratchford and the national officers will co-operate with the district officers to secure for the miners a higher rate of wages.

It will be remembered that at the national convention at Columbus in January it was decided that miners should demand a wage rate of 69 conts in the Pittsburg district, with the usual differentials as wages paid in the other bituminous districts are always based on the mining rate at Pittsburg.

Operators are now making preparations for the lake trade, which will open about the middle of April, when all railroad mines will have nearly all the work they can do. It has been agreed that whatever action is taken by the miners must come before that time, and in case the district price is not advanced the trouble will rival the national strilof five years ago. At present the Pittsburg wage rate is from 54 to 60 cents.

Western Operators in Conference.

TERRE HAUTE, Ind., March 3.—There will be an adjourned meeting of the Indiana and Illinois coal operators in Chicago tomorrow to hear a report of the committee in regard to the agreement with railroad companies, by which the coal business in Chicago will be conducted at a uniform price. The wages paid to miners have been reduced 10 to 20 cents a ton. Indiana and Illinois will cut loose from the Ohio and Pittsburg

FOREIGN MARINES CALLED ON.

After Several Volleys Had Been Fired the Mutineers Surrendered-Two Thousand Mussulmans Reported Massacred-Liver of Foreigners in Danger-The Powers Defied-Cretan War News.

CANEA, March 3.-This city was thrown into a wild state of excitement yesterday afternoon by a revolt of the gendarmes. They are composed of Albanians and Bosnians. Their pay is 15 months in arrears. Monday they refused to go on duty and yesterday they seized their officers and imprisoned them in the governor's palace, upon a report gaining currency that the officers had received their pay and intended to leave the island. The officers tried to escape and the mutineers fired upon them. Colonel Suleiman Bey has since died of his wounds. He was shot through the body. The mutineers then barricaded themselves in the barracks.

The foreign marines were hurried to the scene and surrounded the barracks. The Italian and German detachment: fired volleys under the windows and the British commander was just ordering his detachment to fire when a white flag was thrust out of a window. The British and Austrian officers thereupon held a short parley with the mutineers, eventually ending in the surrender of the latter.

After a conference yesterday between the consuls and the admirals it was decided to send officers to Celino and Hierapetra in order to facilitate the rescue of the besieged Mussulmans. C. lino and Candamo will be placed under

THE POWERS DEFIED. Greek Commodore Not Ready to Obey the Foreign Admirals' Orders.

If his ship were sunk, he dcclared, she would salute the foreign flags as she went down.

Rich, pure blood is the only thing that can bring perfect heath. Conslipation is a disease of the blood. A large part of all diseases are traceable directly to impurities in the blood, and can be cured by eliminating them with Dr. Pierce's Golden Medical Discovery. The first thing it does is to put the whole digestive system into perfect order. It stimulates the appetite, excites a copions secretion of the digestive fluids and promotes assimilation. It searches out disease germs wherever they may be, kilis them aud forces them out of the system. The "Goiden Medical Discovery" has been used with unvarying success for over thirty years.

American hotels are so taken up with the desire to dazzle us that they sometimes make as uncomfortable. It is very fine and impressive to have one's eard handled by two men and a big boy and then a little boy when calling upon friends at a great hotel, but it is fatiguing nevertheless to wait 30 minutes and then have the little boy come down and tell you they are not at home. Triplets In China.

In the southern provinces of China there is a superstition that if triplets are born one of the three children will eventually become a noted rebel, writes Dr. Henry Liddell in Demorest's Magazine. In order to avoid that direst of Chinese curses, a bad son, a "wise man" is sent for in order to decide which of the three children is the destined black sheep. The three infants having been conveyed into a perfectly dark room, the "wise man" takes three pieces of twine, caeh of a different color, as white, red and black, and, entering the room, ties one of these pieces of string round a wrist of each baby. The one which, when brought out into the light, is found to have the red string on its wrist is drowned like a puppy.

GOMEZ INTERVIEWED.

fie Does Not Ask Help but Wants Fairness From America.

NEW YORK, March 8.-The Sun's Havana correspondent sends the following statement given to him by General Maximo Gomez, at his Santa Clara camp, on Feb. 25:

"I suppose that the American public is well aware now of the fact that we want the absolute independence of the island from Spain.

"We do not seek to involve the United States in a war with Spain. We do not try in the least to compromise that eountry in our struggle, or to win our independence with any material help from Americans.

"No, we'do not want American help and we did not count upon it when we revolted against the tyranny of the Spaniards, but we do not like to see the American nation siding with our encuies, the American warships haunting our expeditionary steamers, the American police arresting our friends abroad, and serving—oh, shame for the country of Washington!—as agents of the Spanish by the proposition of the Spanish by the state of the state of

ish monarchy.
"We like fair neutrality. We like to struggle alone against Spain, notagainst Spain helped by the powerful resources at the command of a president of the United States.

United States.
"I know that the American nation does not approve such conduct and is in full sympathy with our eause. I thank the American people as I thank the American press, and I am hopeful that President McKinley will be more just than President Cleveland."

It is known that the government at Madrid has intimated that General Weyler might better send in his resignation in case no clear proofs of progress.

nation in case no clear proofs of progress against the revolution shall have been given early in March.

At this moment Gomez controls the province of Santa Clara and fighting is general all over the island.

It is generally believed by Spaniards that as soon as a good opportunity offers Weyler will be recalled.

Whatever Spain may do the end is near. Spain can not afford a year more of war, which becomes a certainty with the approach of the rainy season. Insubordination and immorality prevail in her army, and her money is exhausted, while the patriots are as strong and as

enthusiastic as ever.

Weyler's son, Don Fernando, has arrived here. It is said in the palace that he has arranged all his father's baggage for departure from the island.

Another Expedition Off.

New York, March 3. - A large schooner loaded several hundred cases of arms and ammunition and sailed for Cuba from Barngate yesterday morning, having successfully eluded the federal authorities. Major Castroverdi is believed to be in command.

WHERE MONEY IS PLENTY.

part of the territory of the United States has just been received by H. W. Ogborn of this city from Oscar Gard, deputy collector of the port of Mary's island, Alaska. Gard formerly lived in Ohio, and then at Richmond, Ind., and he went to the northwestern states, and finally to Alaska.

"There is a terrible rush to the Yukon river pacer mines from the states," he writes. "There are four large steamers running up here from Tacoma and they are loaded down with miners bound for the mines. It is something remarkable what hardships and exposare men will go through for gold. They have to walk and pack their provisions 900 miles over the mountains to the Yukon, yet there are hundreds of men

"They make all the way from \$10 up to \$500 per day, washing on the bars of the creeks and river. This may seem like a fairy tale, but, nevertheless, it is true. I know a Mr. Miller who washed out in two seasons \$53,000 in gold dust in 140 days of actual work, but, of course, this is an exception. Most of them get from \$3,000 to \$5,000, and, of eourse, some don't get anything.
"This is a very mild winter along the

coast, 16 degrees above zero the coldest day so far at Mary's island. This is caused by the Japanese current. Times are good in this country, but at the rate people are coming in, I am afraid it will be overdone."

WHERE IT IS NOT SO PUBLIC. The Murderers of Pearl Bryan to Be Taken to Another Jail.

CINCINNATI, March 3 .- Judge Helm of Newport has ordered the removal of Scott Jackson and Alonzo Walling, the murderers of Pearl Bryan, from the Covington jail to the Campbell county jail at the county seat, Alexandria.

Alexandria is a village in the geo-graphical center of the county, 13 miles from Newport, and about five miles from the nearest railway station. The jail is an extremely primitive affeir, which would not resist an attack five minutes, but the authorities are satisfled that no violence is to be expected in the cases of Jackson and Walling.

Jackson and Walling might escape from the Alexandria jail with small effort were they left to themselves, but as two guards of the deathwatch will have the prisoners constantly under their cyes the Alexandria jail is undoubtedly safe.

The prisoners do not relish a removal for they have had good times in the Covington jail, but the mandates of the court must be obeyed, and they will probably be taken there today.

BERLIN, March 3.—A petition for the retention here of Mr. Edwin F. Uhl, the United States ambassador to Germany, signed by a number of prominent Americans in this city, has been cabled to President-elect McKinley.

Will Sleep at Windsor Castle. London, March 8 .- United States Ambassador Mr. Thomas F. Bayard and Mrs. Bayard will bid farewell to the queen on Thursday, when they will
